

Build Your Brand - Preparing to Enter the Job Market

Part 1: Task 1

I have been training on the HyperionDev bootcamp in full stack web development going in depth with programming languages such as HTML, CSS and javascript along with backend technologies like node.js. I have an idea to build a platform to connect local communities to reliable and trustworthy service providers such as tradesmen. The platform will require the registered service providers to be verified with us to enable us to connect them to people who would use these services. I would use the technologies i have learned to build this to a high standard and continue my learning to constantly improve and expand the website so that it is accessible to everyone across the globe and become a multi-million pound business.

Part 2: Task 1

LinkedIn profile: www.linkedin.com/in/ryan--smedley

The image is a screenshot of a LinkedIn profile for Ryan Smedley. At the top, the profile header shows the name 'Ryan Smedley (He/Him)', the title 'Junior Full Stack Web Developer', and a location 'Antrim, Northern Ireland, United Kingdom'. Below this is a banner image with text about an 'AWS Certified Cloud Practitioner' certification. The main section of the profile is divided into 'Experience' and 'Education'. The 'Experience' section lists four roles: 'Student' at HyperionDev (Mar 2024 - Present), 'Travel service partner' at Travelex (Jan 2024 - Present), 'Analyst' at Deloitte (Jan 2023 - Nov 2023), and 'Assistant Manager' at McDonald's (Oct 2018 - Jan 2023). Each role includes a brief description of the work and a list of skills. The 'Education' section lists 'HyperionDev' for 'Full Stack Web Development' (Mar 2024 - Jul 2024). The profile also shows a 'Show all posts' button and a '7' next to the profile picture, indicating the number of posts.
